'A Supportive Programme for Parents of Teens'

Three Day Training Programme

This programme aims to give parents a greater understanding about the developmental process of their teenage child. Sessions include the following topics: Alcohol; Conflict and Aggression; Sex and Relationships; Praise and Encouragement; Setting the Limits and much more.

The three day STOP Training Programme examines the underlying ethos and objectives of the STOP programme on a week-by-week basis. Practitioners are taken through the entire programme in chronological order, to provide a basic level of knowledge and skill that they can reflect upon when facilitating their own group. This includes possible difficulties, experiential scenarios and the opportunity for open discussion around the minutiae of running the STOP programme in practical terms. All course attendees are provided with their own STOP manual and corresponding CD.
